

## PRODUCT SPECIFIC LICENSE TERMS Portal Translation Manager ("Program")

IN ADDITION TO THE LICENSE TERMS SET OUT IN THE SYBASE LICENSE AGREEMENT, THE FOLLOWING ADDITIONAL OR DIFFERENT RIGHTS AND ACCOMPANYING OBLIGATIONS AND RESTRICTIONS SHALL APPLY TO THE PROGRAM:

- 1. Definitions.** Capitalized terms not otherwise defined herein shall have the meanings set forth in the Agreement.
- 2. Scope of License and Restrictions.** This Program is a suite containing several software components. Use of all components of the Program is limited to the same Machine(s) for which you have acquired this Program license, and the components of this Program may not be unbundled or used separately. Unless otherwise noted in Section 3, all software components are licensed for use on one or more Machines and may be accessed and used by an unlimited number of internal users within your organization, provided that you have paid the applicable fees for such Machines. Internet Users may not use the Program to develop or modify applications or perform other programming tasks.
- 3. Additional Products.** Third party products including the Enterprise Translation Server ("ETS") from SDL International, plc. ("SDL"), formerly Transparent Language, Inc., are included with the Program. ETS software is licensed to you only pursuant to the terms of the click-wrap agreement presented to you upon first use of the ETS software (if you consent to the license). Sections 4 ("Copyright and Ownership"), 11 ("Limitation of Liability"), 12 ("High Risk Activity") and 13 ("General") of the Agreement are applicable to the Additional Products, as well as the following **ADDITIONAL DISCLAIMERS. THESE ADDITIONAL PRODUCTS ARE PROVIDED AND (WHERE APPLICABLE) LICENSED BY SYBASE OR ITS SUBSIDIARY "AS IS" AND WITHOUT WARRANTY OR INDEMNITY OF ANY KIND. IN NO EVENT WILL SYBASE OR ITS SUBSIDIARIES BE LIABLE FOR ANY DIRECT DAMAGES ARISING IN ANY WAY OUT OF OR RELATING TO THE USE OF THESE ADDITIONAL PRODUCTS.**  
  
The license provided with the ETS software by SDL is initially an evaluation only license that permits a limited metered use of the software measured by the number of words translated (the "Metered Use"). Upon exhaustion of the initial Metered Use, any additional Metered Use must be purchased directly from SDL.
- 4. Support.** Notwithstanding anything to the contrary in the Agreement, support for the ETS software shall be provided by Sybase in conjunction with support purchased for the Program.
